Election/Restrictions

1. Claims 28-61 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement in Paper No. 3.

Applicant argues that the search and examination of a single claim set would likely cover all aspects of the application. However, in order for applicant to overcome the restriction requirement under 806.05(d), applicant has to provide an argument, supported by facts, that the other use, suggested by the examiner, cannot be accomplished or is not reasonable. In addition, the search for claim 1 would not necessarily require the search for the specific pallet structure in claim 55-61. Hence, the restriction requirement is Final.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the transverse ribs or the contact points on the top cover must be shown or the feature(s) canceled from claims 8, 12 and 24. No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. Claims 6-12, 15-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 6, 15 and 17, the term “the trays” and “each tray” lack proper antecedent basis. Applicant has only claimed one modular tray and not multiple trays.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-2, 13-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Mitsumori et al. (US 4,445,614). Mitsumori discloses a pallet with a deck which is the top surface above the legs. The pallet is attached to a carrier 5 with a fastening element 7.

Allowable Subject Matter

6. Claims 3-12, 15-27 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
